The current CV19 LOCKDOWN is without historic precedent. It is a farce. This CV19 "event" has been leveraged by a neoliberal 1% to resuscitate their failed corporate global governing objectives. Two months of mandatory Stay-At-Home research and data collection proves this CV19 to be no more than a bad flu. Our freedoms to make adult responsible decisions for the well being of ourselves, our family and friends has been usurped from us without reason, consent or constitutionality. We hereby vote with this ballot for the policies and budget allocations that we voters authorize to solve the crisis democratically. Our current government is colonized by the 1%, it's politicians and it's media. The votes below describe our

policy desires. Representative's jobs are to implement those policies, not to decide for us. This ballot is a glimpse of the how the public must decide policy in the future. It is in response to a collapse in responsible governing. We must self rule via Direct Democracy.

Votes on each Policy Item are entered in gradations of emphasis from YES (4 points) to OK (3 point) to NEUTRAL (2 points) to SKEPTICAL (1 point) to NO (0 points). A 2.1 point average total from all voters on each of Items 1,2, 3, and 4 decides implementation or rejection of the policy described with appropriate intensity indicated by the highness or lowness of the average total point count for each policy.

**Instructions: circle the one word for each Impeachment Item below, that best describes your decision + emphasis.**

(yes = 4, OK = 3, neutral = 2, skeptical = 1, no = 0. Points will be totaled & divided by the number of votes. 2.1 avg. passes each policy, higher avg. total provides emphasis. Each elected & judicial official that receives this ballot must record and tally accurately the results and submit them in timely fashion to the public & to ruling bodies they work in at City, County, State & National levels and collectively coordinate their timely implementation.

# THE AMERICAN PEOPLE'S CV19 LOCKDOWN BAILOUT REFERENDUM 2020

*"Our Government, our Policies, our Budget."*

Date:

★ Dear

This letter and completed Policy & Budget Ballot is being sent to you as a record of the Policies and Budget I am directing you to implement on my behalf. The American people after a month of Stay-At-Home detention research and data assessment have concluded that CV19 is only a bad flu and there is no historic or medical reasoning for social LOCKDOWN. It is apparent that authoritarian neoliberal 1%ers are leveraging this event as an excuse to impose martial law control over society under the banner of safety. A FAKE safety merely to facilitate a corporate global governing apparatus whereby local laws and constitutions are voided by undemocratic pronouncements of corporate dictates to unleash unregulated profits.

Republics worldwide have been OCCUPIED and COLONIZED by neoliberal capitalist wealth and power attempting to save failing capitalism in a PostGrowth environment. Earth has hit peak everything. Growth, the universal mantra of capitalism, is no longer possible on a maxed-out planet. To surmount these natural limits and avoid humanity replacing capitalism with a maintenance economy of egalitarian socialism, the 1% have deployed their Disaster Capitalism shock & awe team to flip a flu into a blanket pandemic LOCKDOWN. Bill Gates advocates mandatory vaccines (and has billions invested in this technology) even though flu vaccine efficacy is only from 20 - 70% at best and vaccines have caused enormous documented human damage, \$3+ billion in payouts and the Supreme Court in their own words has declared "vaccines unavoidably un-safe". BigPharma and BigMed stand to haul in massive profits with on-call lockdowns, enforced medical procedures and an engaged market of forced consumption.

The latest estimates from Stanford and the UK show that the infection to death rate is 0.12%, comparable to a seasonal flu, and is only causing death with the elderly and those with multiple underlying health problems. The WHO is 2/3rds funded by private corporations with massive funding from BigVaccine. The CDC and US government agencies are infamous for fastracking any beneficial legislation or rule breaks for BigMed or BigPharma at the expense of the public who ends up paying the bill. Sweden and Taiwan have not locked down their citizens and their numbers have remained comparable.

The worst feature of this crisis is that it provides cover for the 1%'s INFINITE FED MONEY BAILOUT while throwing the 99% into joblessness and eviction, declaring public assets like USPS, SS and Medicare subject to austerity, while licking their chops over possible privatization. The 1% Bankster CA\$1N0 Bubble, reinflated in multiple directions from 2008, was ready to blow and reset before CV19. Now, they and their bought-and-sold-politicians use not only pandemic for martial laws control to save capitalism, but as excuse to absconding our Treasury, slam us with digital cash and a Panopticon of surveillance to keep us under their boot.

We've had enough of corporate profit motivated policy decisions being made in our government. The ballot on the reverse side is my vote on (4) CV19 policies which we demand our representatives to implement.

Sincerely,

Name:
