

DeTox your body, DeTox your home, and DeTox the Economy.

Many of today's consumer products – from children's pajamas to lipstick – contain toxic chemical additives that simply aren't necessary. Research online (for example, <http://www.cosmeticsdatabase.com/>) before you buy to be sure you're not inadvertently introducing toxics into your home and body. Then tell your friends about toxics in consumer products. Together, ask the businesses why they're using toxic chemicals without any warning labels. And ask your elected officials why they are permitting this practice. The European Union has adopted strong policies that require toxics to be removed from many products. So, while our electronic gadgets and cosmetics have toxics in them, people in Europe can buy the same things toxics-free. Let's demand the same thing here. Getting the toxics out of production at the source is the best way to ensure they don't get into any home and body.
