UNTIL NET NEUTRALITY RESTORED

November 2017

Dear ISP (Internet Service Provider),

You have lobbied the FCC and Congress to abolish Net-Neutrality. I know that this will result in lowered services for us and higher profits for the industry. I and most Americans find your actions a violation of your contracted service arrangement with the public and customers.

As such I will be reducing my ISP fees by 50% until you approach the FCC and get Net-Neutrality restored. If after three months there are no results, your ISP compensation from us will be for what worth you have reduced it to... \$1.

Sincerely,
